

REVOLUTIONARY DESIGN!

- Purpose designed Bi-Fold door
- Simple to install
- Internal or external opening. Both options are internally beaded
- 70mm deep outer frame
- Fully sculptured frames
- Secure shoot bolt locking
- Standard Linar frame details allowing all clip on ancillary items to fit
- Co-extruded sash with Linar's patented glazing seal

CONCEALED HARDWARE

Stainless steel track mounted in-board, only hinge knuckles visible when door is closed.

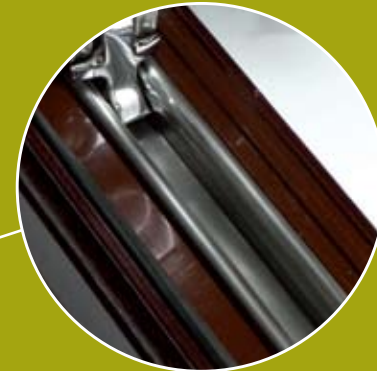

SLIM SIGHT LINES

Slimmer panel joint sight lines, bespoke sash profile maximises glazed areas.

LOW THRESHOLD

Less trip hazards due to the range of low threshold options available. All of which are wheelchair friendly.

NO KEEPS NECESSARY

Shootbolts locate into the track.
