Our new range of Bi-Fold doors have been purposely designed so are full of helpful features and aesthetic benefits to enhance your home. They are easy to operate with a stainless steel track mounted inboard. The doors can be installed with either internal or external opening assemblies, they have slim panels so you have more glass and more light. The door encompasses a bespoke range of hardware and which allows them to be manufactured in a number of unique styles. The frames are fully sculptured and the whole system is manufactured completely free of lead.

HINGES

Concealed hardware ensures that only the hinge knuckles are visible when the door is closed.

Patented roller assembly ensures smooth, effortless operation.

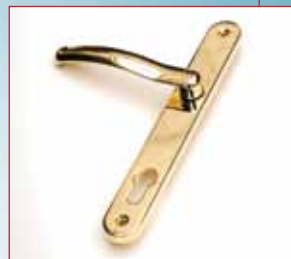

HINGE HANDLES

LIE-FLAT HANDLES

DOOR HANDLES

The hardware is available in a white, gold or a chrome finish. All hardware, with the exception of door locking gear, is bespoke and only available through Liniar. It will not work with any other system and neither theirs with ours.
