**AW604** FRAME

viewed internally  
**AW685** FLAT SASH  
**AW683** BEAD  
**AW604** FRAME

## STANDARD EASY-CLEAN HINGES

The Easy-Clean hinges enable the sash to be opened at 90 degrees

By pressing down on the purple button, the sash is released and can slide along its hinge runner

This now gives access to the front of the sash from indoors for cleaning.

### CHOICE OF OUTER FRAMES

Choice of a featured, deep-rebate 70mm outer frame or our standard 58mm outer frame.

### GLOSS OR MATT FINISH

Gloss finish reduces cleaning and maintenance and retains a cleaner look for longer, helping resist airborne pollutants and moulds. The matt finish creates a flatter, more contemporary appearance.

### CHOICE OF FINISHES

A selection of standard colours or a wide range of RAL colours are available.

### ENERGY EFFICIENCY

Unique nylon polyamide thermal break design helps to improve thermal performance by separating the inner and outer frame and sash.

### AW685 SASH

The AW685 is a slim rebate sash with a simple, flat profile that brings the glass much further forward for a more modern appearance.
